Policy: Relation With Other State Government - 1003

The ESUCC intends that its positions on proposed legislation be effectively communicated to the Nebraska Legislature. The Board may also direct the Executive Director to prepare legislation for introduction on its behalf.

The Executive Director is responsible for relations with the Nebraska Legislature and will be designated to serve as the registered lobbyist for the ESUCC. The lobbyist will annually prepare a legislative work plan that will describe the procedures to be followed in carrying out the lobbying effort during the legislative session.
