Policy: Concept of Administration - 1004

The ESUCC system is responsible for the direction, coordination and management of staff in their efforts to reach educational goals adopted by the ESUCC within the guidelines established by Board policy, law and employee agreements.

To demonstrate leadership, to resolve the inevitable problems, and to overcome obstacles which will arise both inside the ESUCC and in its relations with the community, the Board expects the administration to specialize in

1. decision making and communication;
2. planning, organizing, implementing and evaluating; and
3. coordinating and guiding the various centers of authority and responsibility within the ESUCC and the community so as to enable people to do things together for education that they might not be able to do separately.
