Policy: Instructional Materials (I-Mat) - 2003

The Instructional Materials (I-Mat) project provides statewide coordination for the purchase of media and other instructional materials. As technology moves forward so does the I-Mat project. Currently, videos are available in physical formats including VHS, DVD, and CD. Additionally, media materials are being digitized and made available as “media on demand” through Discovery Educations “Power Media Plus”. This digital format is opening up media materials, once difficult to obtain, to schools across the state. Additionally, the project works to match media to specific standards and is making media searchable for the most appropriate classroom use.

The ESUCC Board contracts with ESU 17 to provide staffing for I-Mat. Staff assigned to the I-Mat project report directly to the Executive Director.
